

Travel

ZHPP obtained guidance from the CT Office of Early Childhood, our licensing agent, and the Wilton Health Department, which continue to advise adherence to the CDC travel guidance as stated below. Please notify the Director of any travel plans so that return to school dates may be discussed.

“Domestic Travel for Non-Vaccinated Persons

- Get tested 3-5 days after travel AND self-quarantine at home for a full 7 days after travel.
 - Continue to stay home and self-quarantine for a full 7 days after travel, even if your test is negative.
 - If your test is positive, [isolate](#) yourself to protect others from getting infected and see our Exposure To COVID-19, Infected Individuals policy.
- If you do not get tested, stay home and self-quarantine for a full 10 days after travel.
- Remember to self-monitor for signs and symptoms of COVID-19 while in quarantine. If at any time during your quarantine you develop signs and symptoms of COVID-19, self-isolate (including away from other members of your travel party), contact a healthcare provider, and seek testing.”

EXCEPTION: Domestic Travel for Non-Vaccinated Persons to Comparably Vaccinated States - Non-vaccinated persons who travel by car to New England, New York, and New Jersey are exempt from the policy above. Please note, however, that other COVID-19 policies still apply and safety measures like testing and quarantining might still be required.
